EDUCATION

GLA University   **Mathura, Uttar Pradesh**
Masters in Computer Applications (CGPA: 7.6)   *2023– 2025*

Bundelkhand University   **Jhansi, Uttar Pradesh**
Bachelors in Computer Applications (CGPA: 6.8)   *2020 – 2023*

CERTIFICATION

Certified Software Tester – Q*Spiders*   **Feb 2025 - July 2025**
- *Completed a full-time, instructor-led training program focused on industry-standard QA practices.*
- **Key Learnings & Skills Acquired:**
- Gained in-depth knowledge of **Manual Testing**, including test case design, test plan creation, and bug reporting.
- Strong understanding of **SDLC** and **STLC** models with real-time project exposure.
- Learned the **Defect Life Cycle**, severity & priority management, and bug tracking using tools like **Jira**.
- Practiced real-time testing workflows through hands-on assignments and mock projects.
- Basic exposure to **Automation Testing** using **Selenium WebDriver** and **TestNG**.
- Worked with key QA tools like **Postman** (API testing), **Maven** (build tool), and **Excel** (test case/bug documentation).
- Familiar with **Agile methodology**, including daily stand-ups, sprint planning, and task tracking.

TECHNICAL SKILLS

- **Programming Languages**: Java, SQL.
- **Software Testing**: Manual Testing, Regression Testing, Integration Testing, Smoke and Sanity Testing, System Testing ,Test Case Design, Defect Tracking, Blackbox Testing, SDLC Models.
- **Tools**: Git/GitHub, SQL Server Management Studio (SSMS), VS Code, Eclipse, Maven, Postman, Jira.
- **Agile Methodology**: Understanding of Scrum, Sprint planning, and daily standups.
- **Operating System:** Linux, Windows, MAC.

PROJECTS

Bank of Baroda (BOB) – Online Banking System | *Manual Testing, Jira, Excel*   **Feb 2025**
- Designed and executed test cases for key banking modules like Login, Fund Transfer, and Transaction History for a simulated Bank of Baroda portal.
- Performed functional, integration, smoke, and regression testing to ensure reliability and smooth user experience.
- Logged and tracked bugs using **Jira**, with severity and priority classification, and maintained test reports in **Excel**.
- Applied knowledge of the **defect life cycle**, **test design techniques**, and followed **SDLC/STLC** in an Agile-based project workflow.

OpenCart E-COMMERCE WEBSITE |*Automation Testing, Selenium, Java, XPath*   **April 2025**
- Automated test cases for key modules like Login, Product Search, Cart, and Checkout using **Selenium WebDriver** with **Java**. Handled dynamic web elements using XPath/CSS selectors and implemented waits for stable execution.
- Wrote and executed test scripts to make sure all functions work properly and without errors.
- Integrated **Maven** for project build management and executed test cases across multiple browsers.

ACHIEVEMENTS

- Completed comprehensive software testing training at "QSpiders", gaining hands-on experience in manual Testing and Automation testing tools, and Agile methodologies.
- Certified in CCC demonstrating foundational knowledge in computer operations and software applications.
- Selectors Hub Certification in Testing.
- Volunteering Internship in Muskurahat Foundation through Internshala.
- Runner Up | Google Developer Student Club | GDSCBU.

SOFT SKILLS

- Collaboration, Problem Analysis, Flexibility, Prioritization, Taking Initiative, Innovation.
